Posting information regarding member compensation

Applies to all IMRF employers and their employees (including those not participating in IMRF)

The Law:

Within six days of approving its budget, an IMRF employer must post the total compensation package for each employee receiving a total compensation package that exceeds \$75,000 a year.

For this statute, "total compensation package" is defined as salary, employer-paid health insurance premiums, housing allowance, vehicle allowance, clothing allowance, bonuses, loans, vacation days which will be earned in that year and sick days which will be earned in that year.

If an employer maintains a website, it can post the information on its website or post the information available at its main office. If it chooses to post at its office, it must post on its website on how to access the information
